

GREENLEE Greenlee Tool Promo

Football Tailgating is Back!

Service Electric Supply is continuing our focus on tools for this month's promotion. Once again, American-made!

Founded in 1862 by brothers Robert Greenlee and Ralph Greenlee, these brothers invented a drill surrounded by four chisel blades, used in making pockets for tenon joints for the furniture industry. Not stopping there, they continued to evolve into different markets, always coming up with new products.

Let Service Electric Supply fulfill your tooling needs - From hole saws to pipe bending and so much more!

Purchase \$50.00 worth of Greenlee tools and your name will be entered for a drawing at the end of the month for a Stainless-Steel gas grill, perfect for tailgating and more.

WALK-IN COUNTER CUSTOMERS ONLY

Promotion active through September 30, 2022
